DETAILED ACTION

Allowable Subject Matter

1. Claims 1-7 are allowed.
2. The following is an examiner's statement of reasons for allowance:

Prior art does not show an optical connector having an alignment portion with a plurality of holes for insertion of an end of optical fibers and a guide portion for guiding a part of the fibers and a holding portion for holding other part of the fibers where the alignment portion and the guide portion are fixed to a housing of the connector and the holding portion is movable relative to the housing. Such a feature provides a means to adjust the amount of protrusion of the optical fibers from an end face of the alignment portion.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Drawings

3. The application being allowed corrected drawings including changes proposed 4/5/04 are required.
